

WALLET WATCHER

# Temporary User manual

Iteration 2 Release Version

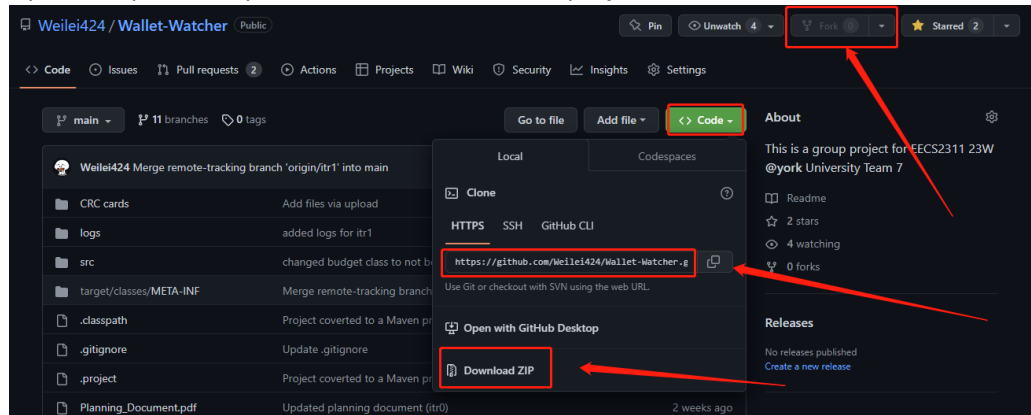

## Setup:

1. Please make sure your computer has Java 17 or later version installed. To check that, use terminal (cmd for Windows users), and enter "java -version".

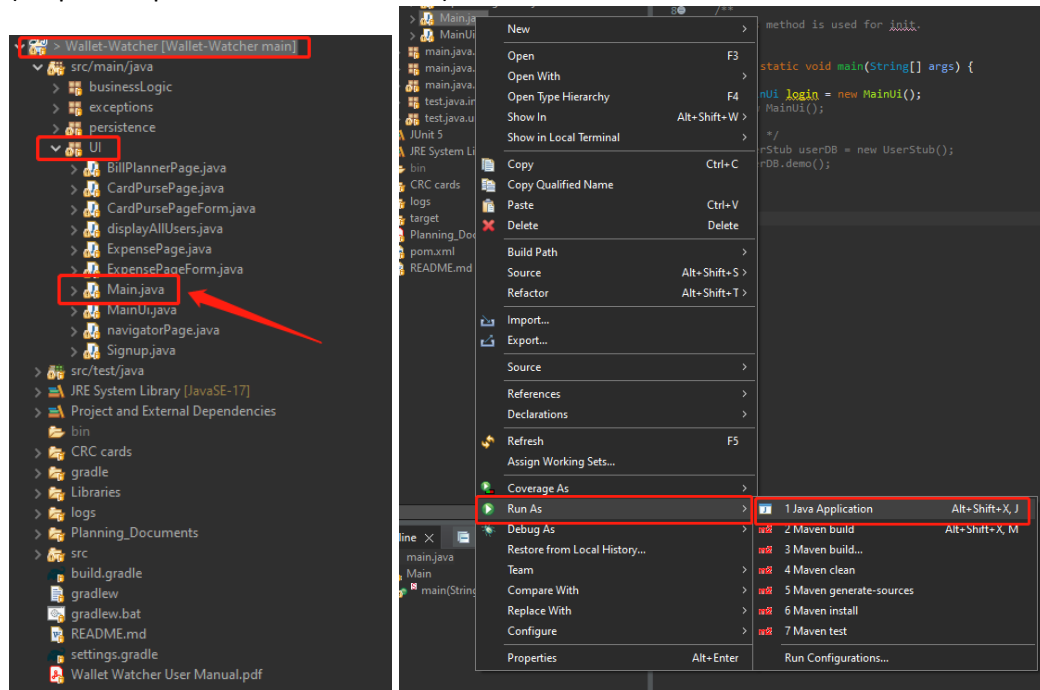

```
>java -version
java version "18.0.2.1" 2022-08-18
Java(TM) SE Runtime Environment (build 18.0.2.1+1-1)
Java HotSpot(TM) 64-Bit Server VM (build 18.0.2.1+1-1, mixed mode, sharing)
```

[Click here](#) if you don't see your screen showing the current Java version or your Java is outdated.

2. Visit <https://github.com/Weilei424/Wallet-Watcher>, and you can either download the zip file, import it to your IDE, or clone/fork the project.

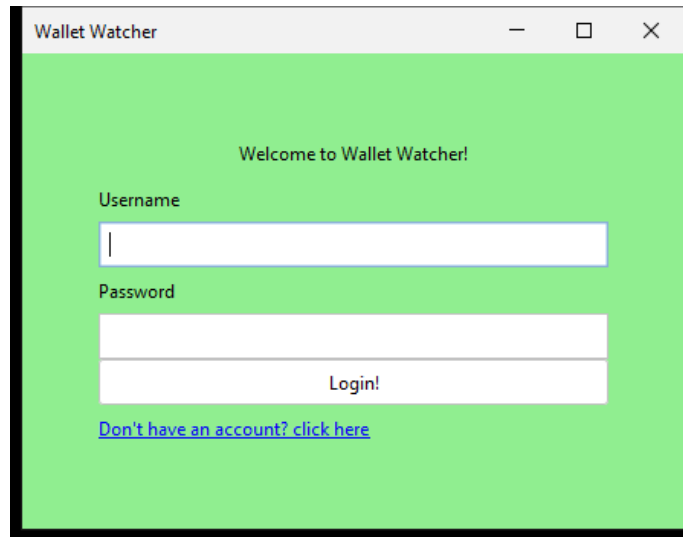

3. Use file explorer to locate the file Main.java, right click and run as Java application. (Eclipse IDE procedure shown below)

You are all set!

## User interface and operations:

### 1. Login window.

A screenshot of a web browser window titled "Wallet Watcher". The page has a light green background. At the top, it says "Welcome to Wallet Watcher!". Below this, there are two input fields: "Username" and "Password". The "Username" field contains a single character, possibly a cursor. Below the "Password" field is a "Login!" button. At the bottom, there is a blue hyperlink that says "Don't have an account? click here".

**IMPORTANT:** login as demo user to explore more feature, please use:

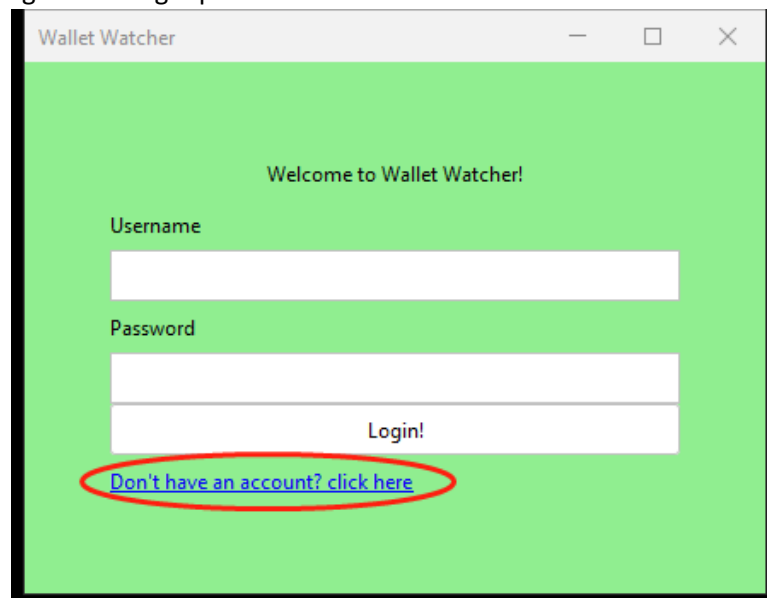

**Username:** ceojeff

**Password:** UseAmazon!

Then click "Login!" button to proceed.

### 2. New account signup.

Click here to go to the signup window

A screenshot of the same "Wallet Watcher" web browser window. The layout is identical to the first screenshot, but the blue hyperlink "Don't have an account? click here" at the bottom is circled in red.

Fill in all blanks then click Submit to finish registration. (All blanks are required)  
We do not accept duplicate username. If you forget or need to change password please contact us through GitHub issue.
